**Total cost:**

\$67 million

**Cost/square foot:**

\$180.59

**Completion:**

July 2004

**Photographer:**

James D'Addio

The new NJIT Campus Center and Academic Building work as a composite assemblage uniting the campus green with the eastern edge of campus. A third-floor pedestrian bridge connects the two buildings physically and creates a visual terminus for a pedestrian street. It also links the Academic Building with both a new roof terrace and a new exterior stair leading to the campus green.

Spatially, the gentle curve of the Campus Center facade projects into the green and creates a dynamic presence, encouraging students to either enter the building or flow around it.

The Campus Center contains a cafeteria, ballroom, meeting rooms, student lounge, game rooms, student offices, faculty dining and a pub.

The Academic Building houses administrative offices, classrooms and computer labs in a highly flexible loft space. It extends the campus image to MLK Boulevard and forms a backdrop for Eberhardt Hall.
